Product Specifications

Wall Mounted Digital Kiosks
32 inch

Overview:

Wall-mounted digital kiosks are those types of digital kiosks that can be mounted on the wall and displayed as a digital frame. They can be purchased as standalone monitors or as all-in-one solutions with a monitor, PC, and/or touchscreen built-in. When there is a lack of floor space, wall mount devices are perfect because they may be utilized for most applications.

Benefits of Wall-Mounted Digital Kiosk:

- Firstly, helps reduce business costs.
- Improves business efficiency
- Boost's company sales
- Allows real-time communication
- Customers receive instant satisfaction
