

# Product Specifications

## Education Whiteboard 85 inch

## Overview:

A Smart interactive whiteboard is an interactive whiteboard that responds to touch and enables writing and object movement. An HDMI cable is used to connect the Smart interactive whiteboard to a PC for use. You can view what is on the board and what is on the computer thanks to the Smart interactive whiteboard. With Smart interactive whiteboard, you can write on them with special colored pens and tap objects with just your finger. When it comes to writing on a whiteboard, this can save teachers the time it would take to purchase EXPO markers. Students can now work on a problem on the board at the same time thanks to upgraded smart boards. Previously, since the smart whiteboard wouldn't respond to numerous touches, only one user could touch the board at a time.

## Benefits of the education whiteboard in the classroom:

- A Right-Hand Man for education whiteboard
- Effective Key Points
- Better Group Engagement
- Respond to questions from students
- Ecologically sound
- Toggle the switch

## Features:

<b>Display Size</b>	1871.4*1053.6mm
<b>Brightness</b>	300nit
<b>Contrast</b>	5000:1
<b>Color Gamut</b>	68% NTSC
<b>Touch Technology</b>	Non-contact infrared sensor
<b>Effectively Identify Size</b>	6mm
<b>Processor</b>	ARM A53 quad core
<b>System Memory</b>	16GB
<b>Input Voltage</b>	AC 90V-264V 60-/50Hz
<b>Built-in-speaker</b>	8Ω 10W*2
<b>Working Temperature</b>	0~+50°C
<b>Service Life</b>	60,000 hours
<b>Resolution</b>	3840*2160P (4K)
<b>Power</b>	<220W
<b>Display Scale</b>	16:9
<b>Viewing Angle</b>	89/89/89/89
<b>Accuracy</b>	2mm
<b>System Version</b>	Dual System(Android+Windows)
<b>Cursor Speed</b>	120 points/s
<b>Communication Method</b>	USB free drive
<b>Touch Points</b>	20 Points
<b>Wireless Module</b>	Optional 2.4G,5G,Bluetooth 3 in 1 module
<b>Working Humidity</b>	10%-80%
<b>Warranty</b>	1 year
